Skills

Programming Languages:

Python, C++, Java, SQL

Libraries & Frameworks:

TensorFlow, PyTorch, scikit-learn, Keras, OpenCV, NumPy, Pandas, Spring core, SpringBoot, Spring MVC

Core Concepts:

Data Structures and Algorithms (DSA), Machine Learning, Deep Learning, Computer Vision

Databases & Visualization:

MySQL, JDBC, Power BI, Tableau

Experience

Capgemini Technology Services India Limited

Mar 26 - May 26

Software Engineer Trainee

Java, SpringBoot, React

- Completed enterprise training in Core Java, Spring Framework, Spring Boot, Spring MVC, Spring Security, REST APIs, React, and Python programming.
- Developed a Spring Boot-based application project while gaining hands-on experience in backend development, API integration, and application architecture.
- Worked with JUnit and testing frameworks for unit testing and learned software development best practices and workflows.

Projects

Data Pipeline Monitoring System

Jun 2026 - July 2026

Production-grade data quality and pipeline observability platform

Python, Flask, PostgreSQL, SQLAlchemy

- Developed a full-stack platform for ingesting and validating 100K+ records, with authentication, file management, and pipeline tracking.
- Implemented 5+ automated data quality checks including schema validation, missing values, duplicates, outlier detection, and quality scoring.
- Built an analytics dashboard visualizing 10+ pipeline metrics, validation reports, and historical trends for real-time monitoring.

Multi-Model Weather Forecasting System

Nov 2025 - Dec 2025

Built ML system predicting weather patterns using ensemble of 5+ models

Prophet, Scikit-learn, Streamlit

- Processed and cleaned 100K+ weather records from global dataset, implementing automated outlier detection reducing data anomalies by 95% and creating 40+ features.
- Developed ensemble forecasting model combining ARIMA, Prophet, LSTM, Random Forest, and XGBoost.
- Created interactive Streamlit dashboard with real-time visualizations, model performance comparison, and automated reporting capabilities for stakeholder insights.

Education

Dr. D.Y. Patil Institute of Engineering, Management and Research, Pune

Jun 2025

BE in Artificial intelligence and Data Science |

CGPA: 8.56/10

- Awarded Best Research Paper at National Conference on "Applications of AI in Engineering" for final year project.

Matoshri Jr. College Mhasrul, Nashik

Mar 2021

Higher Secondary Certificate (HSC) |

Percentage: 93.50

Certifications

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
